product features

Backrest height adjustment

- The lumbar support can be adjusted with the help of *backrest up-down feature*.
- Back height adjustment has a *drop-lift type function* that enables user to easily adjust the height intuitively while sitting without using any lever.

- The *trapezoidal back* enables easy grip for back height adjustment.

Seat depth adjustment (Optional)

Seat depth can be adjusted using a separate lever to suit different body sizes.

Adjustable Armrests

- Height adjustable T-arms provide support for forearms as well as aids in free leg movement.
- The PU on the armrest top provides a soft-touch feel to the user's arms.
- It has a button underneath the pad to adjust arm height
