

Dear all

We are happy to announce that WISH has won the prestigious BIFMA level gold certification.

We are the only company outside the U.S. to win this. The detailed docket about significance of this certification and how to leverage the certification to garner business is under preparation and will be sent shortly.

We are happy to announce a special Dealer Scheme for WISH. The scheme is valid till 31st December 2012 and applicable for all dealer orders for WISH in the scheme period which has been received below the average dealer discount. The scheme will not be applicable if any extra assistance is provided to dealer so that the total outflow exceeds the dealer margin.

For this special scheme, the dealer margin on WISH stands revised to 20% from current 15%, for all bookings done till 31st December 2012.

Any order where total outflow is more than 20% will not qualify for the scheme and policy of minimum retention will be applicable for all such orders.

We hope sales teams will utilize the scheme to push WISH through our Channel Partners.

**Regards,
DOS Mktg. Team.**
