

Enterprise Circular

Dear All,

The enterprise table, being positioned as an upgrade from the unitized tables, have been received very well by the customer.

In order to improve our offering and ease our manufacturing of the product we have brought about the following two changes in the table:-

1. Common LHS/RHS

The Table will have a common LHS and RHS, and the service personnel will assemble the table on the site as per the customer's requirement.

2. CPU Hanger

We will also be providing the option of booking the table with or without a CPU Hanger only in the 1500W and 1650W tables (adding the CPU in the other two sizes i.e. 1200W and 1350W will lead to lack of leg space)

Images of the same are below.

The new codes are as follows:-

Codes	Description	CPL	WPL	ED	CPL + ED
		(CONSUME (WD PRICE)
