

FLORA

Talking Points

# FLORA

Attractive . Supportive

## **Option of Cushion & Mesh Back**

- Flora chair back is upholstered or made of self-supporting mesh.
- The fully-upholstered backrest has a novel element of dual tone upholstery in combination of fabric and synthetic leather.
- The mesh back is upholstered with a net fabric with high tenacity yarn and black synthetic leather on periphery.

## **Synchronized recline**

- Centre Synchronous tilting for better comfort while working.
- Upright angle while performing any task. It gives continuous support to your back, helps in avoiding back pain while working.
- Easy accessible and user friendly adjustment controls including tension knob and seat height adjustment lever allows you to customize your chair perfectly for instant comfort.

## **Height Adjustable Arms for work chairs**

- Posture-friendly armrests move up and down and stay with you during recline.
- Unique arm rest fixing at the rear end of the seat allows you to move freely when seated.
- Supports the range of postures and work styles typically followed in today's workplace.
- Filleted arm tops ensure comfortable arm support with smooth edges.

## **Height Adjustable Neck Rest for Cushion Back Model**

- Adjustable height neck rest can be adjusted, Up - Down , in 3 steps for proper neck support.

## **Visitor Seating**

- Available in mesh back. It is designed to complement Flora office chair. Visitor chair offers beauty and comfort in its class.
