

DESIGN STORY : PISA SOFA RANGE

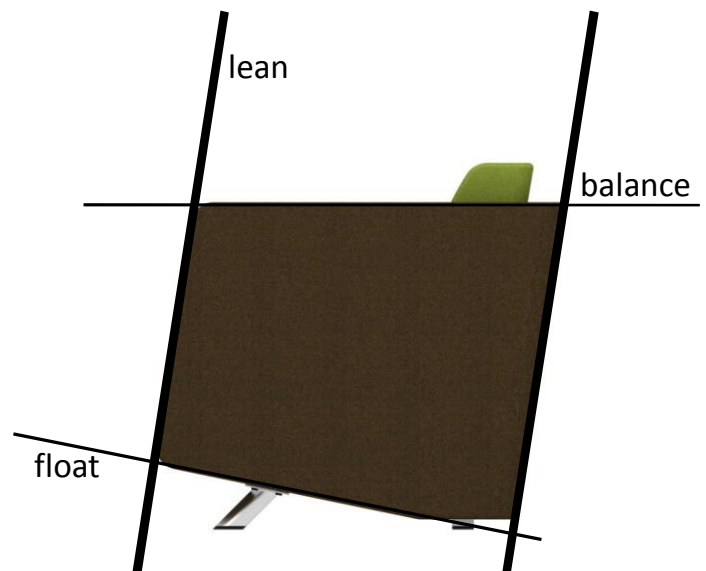

OVERVIEW

PISA is a sofa range meant to address the seating needs of reception area, lounge areas, waiting rooms, work cafes, corridors and executive cabins. The generous amount of seat & back cushioning, soft rounded corners, and a wide seating area make a relaxing seating experience. The sofa maintains a modern style and delivers comfort through its smart and simple design.

The overall form of the sofa is monolithic and looks as if it is carved out of a single block. The slants in the form take inspiration from the “Leaning tower of Pisa” giving it an inclined appearance. On the other hand, the top face of the sofa is made parallel to the ground providing the much needed balance to the product.

INSPIRATION

As the name suggests PISA SOFA gets its inspiration from the ‘LEANING TOWER OF PISA’. The sofa appears to be balancing on a center of gravity closer to its rear side giving it a floating illusion from raised front edge. The floating and inclined block form are well supported by stainless steel slanted legs creating an element of surprise. The same design language is carried forward to the set of tables having slanting lines with tinted glass on top.

Inspired by the leaning tower of Pisa

OFFERING & INTENDED USE

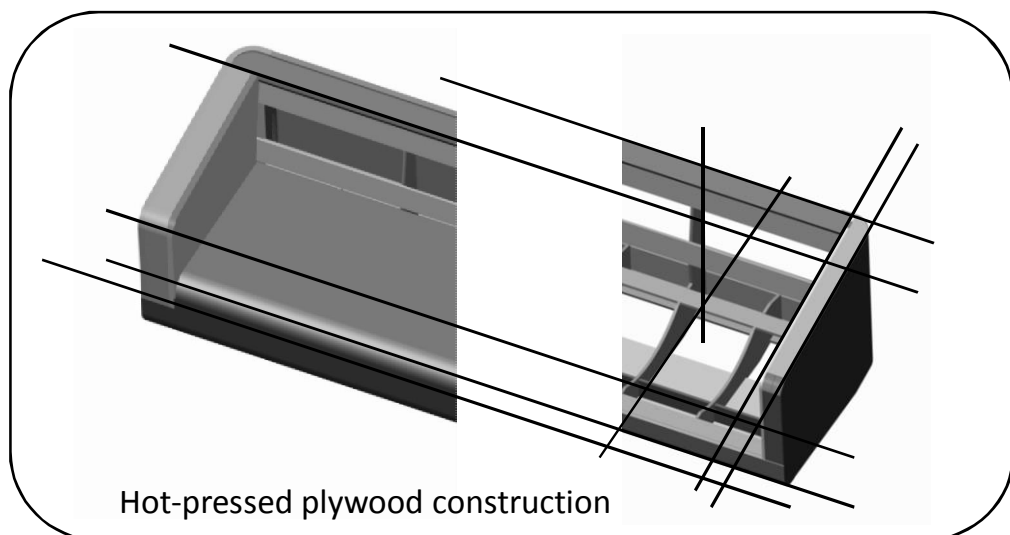

1. One seat Sofa
2. Two seat Sofa
3. Three seat Sofa
4. Centre Table
5. Side Table

Pisa Sofa is suitable for all applications in varied types of offices where it can be used in a set or individual units around open waiting spaces or compact spaces.

CONSTRUCTION

The construction of the PISA Sofa is quite unique. The sofa gets rid of the traditional construction material – wood, and makes use of treated hot-pressed plywood making it more consistent in sizes, performance and resistant to termites or borer. The interlocking ply construction prevents unexpected warping in the frame which may occur in natural wood construction typically due to moisture content variations. Each sofa is made in state of the art manufacturing facility which is equipped with hi-tech machines producing sofa that match performance criteria and achieve consistent output in production. The table frames are made from stainless steel giving the robustness to a delicate tempered glass top.

Pisa is available in dual-tone Fabric or Leatherette upholstery option.

Design Registration Nos. 250467, 250468, 250469, 252266, 252267
