## **Ace Upgrade** **with seat slide mechanism**

Seat depth adjustment is a key feature required for working long hours without stressing your back.

In the journey towards excellent office ergonomics, an optimal seat depth setting is second only to an ideal seat height adjustment feature.

The ACE chair will now sport the seat depth adjustment as a default feature. Adjust the Seat depth to fit your body, so you don't have to adjust your body to fit to the chair. The seat depth adjustment feature enables you to derive long-term comfort while performing multi role tasks.

The new Active Bio Synchro mechanism with seat depth adjustment in the Ace Full Back will have a sliding seat with a maximum range of 3.75cm.

### **To operate Seat Slide**

Lift lever at bottom of seat and hold, slide seat forward or back, and release lever to lock.

# Product News

- A. Effective from 1<sup>st</sup> April 2013 all supplies for Ace full back will be with Seat Slide as a standard feature. All orders to be booked as per new item codes specified in next slide. Old codes , FU3002AX, will be blocked from 1<sup>st</sup> April 2013.
