

# INTERACT

Training and Public Seating

## Interact

Adds class to training and public seating areas

INTERACT chairs are simplistic and elegant in design form, with its light metal frame and seat tip-up mechanism.

The robust designed selection of material helps the product to withstand abuse commonly associated with public spaces.

High performance vinyl options of upholstery, light metal understructure allows for easy cleaning & maintenance of the product.

These can be offered in two options

- Interact with desklet
- Interact with-out desklet
- Interact with desklet is ideal for usage in training rooms, lecture halls and class-rooms of dedicated institutions of higher education.
- Interact with-out desklet is suitable for auditoriums, assembly halls and meeting rooms.

Standard Configuration – 1) 4 seater with common legs
