Introducing **Gallop**

The chair with the **beauty** & **brains**.

Features of Gallop

Bio-Synchro Mechanism

The GALLOP chair is built on a unique **BIO-SYNCHRO** mechanism platform ...
Wherein the back tilts, the seat **GLIDES** in tandem with the back to ensure full contact and support of the user's lumbar area at all positions.

Tilt Limiter

The Gallop mechanism also has a user friendly 5 positions **TILT LIMITER** – to support users alternating between various tasks being performed.

Position 1 :

Upright position :
Computer
Desk work

Positions 2 and 3 :

Business Interactions
Meetings
Telephone Discussions
Casual Conversations

Positions 4 and 5 :

Thinking
Relaxing

Tilt Tension Adjustment

The 1:2 synchro mechanism has an **'Easy Reach'** Tilt Tension Knob to adjust the tilting force as per user's comfort requirement.

Seat Depth Adjustment

The seat has a **IN-BUILT** seat depth adjustment range (60mm) to make the seat depth bigger or smaller and provide the optimum fit to a wide range of people and ensure adequate back support.

Armrest Adjustment

The fully loaded version comes with a **4 WAY SPRING ASSIST** adjustable armrest for ease of operation.

The 4 adjustments

- height,
- width,
- forward/backward and
- swivel

ensure proper support to forearms and shoulders for a comfortable work posture.

Back Height Adjustment

The back height is adjustable (range 7.0 cm) and can be configured to **7 unique positions** for better lumbar support.

This allows the back of the chair to expand / contract in height to provide the right ergonomic back and lumbar support to a wider range of people and provide comfort according to the metrics of the user .

Pneumatic Seat Height Adjustment.

The chair has a pneumatic seat height adjustment to adjust the seat height of the chair for comfortable seating.

The Gallop chair can be configured up to **remarkable 300000+ unique settings** to ensure that it can accommodate and support a large percentile of users in their different work environments.

Gallop Chair passes the BIFMA 5.1 performance test standards and comes with a 5 year Extended Warranty*.

With its **contemporary design** and the above **distinguishing features** its truly is a chair with **Beauty & Brains!**

Green Impact of Gallop Chair

Design & Selection of Materials

- Recycled paper based sheet and LDPE being used for packing.
- Moulded PU foam is CFC free and does not affect Ozone depletion
- Gallop contains no hazardous materials.

End of life

- Ease of segregation in all materials to aid in recycling.

Manufacturing

- Gallop is made at ISO 14001 certified manufacturing facility.
- Non visible components are coated with recycled powder material leading to 96% of powder usage.
- Stitched upholstery patterns are designed in a way that there is minimal fabric wastage/scrap

Product use

- The product releases no toxic substance.
- Service support beyond warranty helps to maximize the working life of the product.
- Helps to delay disposal of materials.

Logistics

- Use of the semi knocked down kit helps to reduce the transportation volume and also helps in faster assembly at the customer place.

Fabric Options

The Gallop chair is available in NEW Voila range of fabrics
