

Great looks at great value for money

Multipurpose Chairs

Godrej Interio introduces a new concept in Tubular Chairs:

Multipurpose Chairs which find application in offices, conference halls, seminar rooms, marriage halls, etc. With upholstered seats and backrests, these chairs are more comfortable, better looking and great value for money.

In addition, there are a range of features like:

- A wide variety of fabrics to choose from. For large requirements, the chairs can be upholstered in the fabric of your choice.
- A choice of three models- CH 1007 and CH 1004 have a cantilevered frame that is reinforced at the bends to give a 'springback effect' and provide extra strength. CH 1018 is a great space saver as it can be stacked with ease.
- All steel components are pre-treated with spray phosphating, powder coated and oven baked. The pre-treatment and powder coating process is automated and gives a scratch-resistant, long-lasting finish. The components can withstand a salt-spray test of over 1,000 hours indicating that the surface can withstand corrosion caused by salty and humid air.
- Scratch hardness is tested as per BS standards. Impact and paint adhesion is tested as per DIN standards.
- The colour of the understructure can be customized for large orders (at a nominal extra cost).
