DERIVE MORE SPACE WITH A SLIMMER OFFICE SYSTEM

Slim designs in interiors create virtual, visual and actual spaces that are a pleasure to work in. These spaces have a sense of openness, a flow and expanse that provide greater comfort per person. DERIVE has been created to enable you to meet your specific business objectives, within fixed floor spaces. The system's slim design format makes it the ideal choice for large floor plans, occupying minimal spaces, without compromising on critical functional aspects. DERIVE, the new slim tile based office system is designed to make office spaces look fantastic while also ensuring optimum performance.

IMPROVED OFFICE AESTHETICS

The 53mm DERIVE partition helps in reducing the floor space and providing value proposition.
The tiles are available in different sizes and finishes that add to the aesthetic sense of the workspace.

OPTIMUM
PERFORMANCE.
EXTRAORDINARY
DESIGN.

FEATURES

- Spine and Fin combination optimizes floor space and provides value.

- Removable skins allows for an easy to change look and feel for the workspace.

- Range of tile heights can be given without disturbing the existing installation.

- Standard tile sizes allow mix and match for a more personalized look.

- Various worktop profiles, worksurface edge options, tile options, sizes, colours and finishes available.

- Concealed wire management for neat under table spaces.

- Easy integration is possible with UNITE storage.

- The exposed edges of the frames have alluminium trims with flat profiles, redefining system slimness.

SLIM STRUCTURE,
STYLISH DESIGN
